

MY Daily Fish Care

Name:

Week:

I need to...

M

T

W

T

F

S

S

Once a day

Feed my fish

Check the water looks clean

Make sure my fish is happy and swimming well

Every few days

Check the water level and top up if needed

Wipe the glass if it looks dirty

Once a week

Change some of the water (about a bucket)

Clean the tank walls if they look green

Gently clean the gravel and decorations

Once a month

Check the water is healthy with a test kit

Rinse the filter if needed (using tank water)

Remember to only do these tasks once a month!

Did you know...

Fish Recognize Their Owners!

Some fish, like goldfish, can recognize the people who feed them and may even swim up to say hello!

Remember

- ♥ Always wash my hands before and after touching anything in the tank.
- ♥ If my fish looks sick or the water looks bad, tell a grown-up.
